### DOA SAFAR (TRAVEL PRAYER)

In the name of Allah, Most Gracious, Most Merciful Praise be to Allah, the Cherisher and Sustainer of the Worlds, and may peace be upon our Honourable Prophet and Messenger (Muhammad Sallallahu 'alaihi wasallam), his family and companions.

May peace be upon all of them.

In the name of Allah, we invoke His name as we embark on this journey and even when we are at rest. For my Lord is Ever Forgiving, Most Merciful, and no just estimate have they made of Allah, such as is due to Him.

Glory be to Him who has brought this under our control, for we could never have accomplished this by ourselves. And to our Lord, surely must we return.

O Allah, we ask of You for goodness and piety on this journey, and from our deeds that meet Your pleasure.

O Allah, lighten our burden on this journey and bridge the distances between us.

O Allah, You are our companion on this journey and the Protector for the family we leave behind.

O Allah, verily we seek refuge in You from this journey's hardship, from evil eyes and misfortune to befall our household.

And may the Grace of Allah be bestowed upon our leader.

Prophet Muhammad sallallahu 'alaihi wasallam and his family and companions.

And Praise be to Allah, the Cherisher and Sustainer of the Worlds.

## TOMB RAIDER

With a touching focus on the father-daughter relationship at the heart of the story and well-designed, heart-stopping chase and fight scenes, Tomb Raider does everything right in creating a well-rounded origin story for the sharp-minded and fiercely independent Lara Croft.

Seven years ago, wealthy but eccentric adventurer Richard Croft (Dominic West) disappeared. With her father presumed dead, Lara Croft (Alicia Vikander), now 21, stands to inherit his global empire. But rather than cashing in on her family name, Lara is determined to forge her own path, working as a bike courier and struggling to make rent

Armed with brash confidence, Lara enters an illegal bike race, only to end up being bailed out of jail by her aunt, Ana Miller (Kristin Scott Thomas) who convinces Lara it's time to move on and take over the reins of her father's company. As she prepares to sign the papers, Lara is presented with a photo of her father, a key and a puzzle, setting her on the path of a perilous adventure.

With a box of maps, codes and cryptic clues from her father, Lara is determined to stop an evil agency from unearthing a demonic queen entombed in a mountain. From her father's secret headquarters to Hong Kong, across a vast and dangerous sea, Lara takes a risky journey to a mysterious Japanese island, where the stakes get even higher.

With the enemy on her tail, Lara is thrust into a series of treacherous situations, resulting in the visually impressive and heart-thumping action scenes that the video-game hero is known for. Running with bound hands from captors, falling off a cliff into rough water hurtling towards a waterfall, catching herself on a rusted plane perched on the edge

of the fall and leaping to safety, only to find more challenges await.

In the second half of the film, the fights, chases and action scenes are breathlessly and proudly non-stop, as Lara Croft relies on her quick wit, blind faith and stubborn nature to survive and earn the name of tomb raider.

Norwegian director Roar Uthaug has breathed exhilarating new life into this well-known story, adding an interesting backstory and a beating emotional heart that sets it apart from previous renditions. But it is Alicia Vikander's undeniable charisma that makes this film worth watching, as she plays just the right mix of fierceness and vulnerability to make this film much better than anyone could have expected.

## **BASMATI BLUES**

This sweet and lively oddball comedy embraces all the best of Bollywood, with music, dancing, romance, mayhem, and a well-played bad guy.

But there is a surprisingly deep undercurrent running through this quirky fish-out-of-water story, in which a well-meaning western scientist is naively controlled by big agriculture.

Devoted scientist Linda (Oscar-winner Brie Larson), who works with her father Eric (Scott Bakula) and Gurgon (Donald Sutherland), has created a miraculous strain of basmati rice that she believes could save the world.

When the company she works for sends her to India to market the rice, Linda is obliviously out of her depth but determined to sell the revolutionary

new product. However, after working with the small farmers, who open their lives and hearts to her, she realises she has allowed the agribusiness to manipulate her into representing a product that could do a lot of harm.

Shot on location in Kerala, *Basmati Blues* is filled with catchy musical numbers and features original songs and music from Pearl Jam, Sugarland and Sonu Nigam. Larson adds a real sparkle to the film as she gives speeches about rice, falls in love with a charming agricultural science student, and embraces the absurdity of bursting into song at any given moment.

## CRAZY EX-GIRLFRIEND

This show is a standout; a whip-smart series with a cracking script and a strong, highly-watchable cast.

Rebecca Bunch (Rachel Bloom) is a successful New York lawyer at the top of her game, and yet, she's miserable. Plagued by anxiety, depression, and the stresses of strained family relationships, happiness seems to be far out of reach.

But when Rebecca runs into her childhood sweetheart Josh Chan (Vincent Rodriquez) a flame sparks within her, reigniting a new sense of purpose as she decides to move across the country to West Covina where, as Josh tells her, everyone is happy.

Once there, the ambitious, charming and slightly-nuts Rebecca settles into a small law firm, makes fast friends with her boss Darryl (Pete Gardner), paralegal Paula (Donna Lynne Champlin) and Josh's best friend Greg (Santino Fontana), and a nemesis in Josh's current girlfriend, the gorgeous yoga instructor Valencia (Gabrielle Ruiz), as she sets out to win Josh's

But despite how it may initially seem, Rebecca is not desperate nor is she man-hungry - she may be a little neurotic, but she's also driven and whip-smart, even if prone to bursting into hilarious and impressivelychoreographed song. Her crosscountry move and obsession with winning Josh's heart is not, actually,

about Josh at all. Instead, it's the fantasy that he represents, and the perfect, romantic, happy life she is pining for begging the question, is she just Josh's crazy ex-girlfriend, or is it a little more nuanced than that?

Bunch is spectacular in this warm, colourful and relatable comedy, portraying a character that could so easily devolve into clichés as fullyformed and fearless, as she swings from tackling the big issues to singing kooky, sharp numbers that never miss a note. A fabulous supporting cast with strong comedic and musical theatre chops makes this a fun, endearing and darkly brilliant ride.

Searching for creativity, challenging what listeners expect from him and pushing the boundaries of his musical abilities, Jack White is wild, messy and brilliant on his third solo album.

White's latest offering is a mix of weird and wonderful sounds.

It's challenging and ambitious, but what a thrill to see White explore, and own, an entirely new direction.

Having finally shaken off the garage-rock and blues influences of the White Stripes, Jack White is for the first time playing with tricks and tools to create lush new sounds.

Trying out everything from funk and hiphop to jazz, and mixing it with distortion and random sound effects, *Boarding House Reach* is a weird but wonderful patchwork that's packed with personality.

On his first two albums, the American muso was still looking back to his iconic band days as he forged his solo sound, but on this third album, he's abandoned all notions of the past, resulting in a gleefully experimental album that guarantees a

wild ride. It's challenging and ambitious, but what a thrill to see White explore, and own, an entirely new direction.

It seems that cutting himself off from the world to write in isolation, with only a 4-track recorder and an old mixer, was a smart decision – the album topped the US Billboard 200 upon release, and reached the top five in Canada, Scotland, Switzerland and the UK. White keeps good company on this record with top-notch musicians including the unmistakable husky voice of C.W. Stoneking on 'Abulia and Akrasia'.

The almost six-minute-long 'Corporation' is one of the best on this cut, reminiscent

of Led Zeppelin with distorted keys and a snarling guitar fighting over a groovy conga beat. Lead singles 'Connected by Love' and 'Respect Commander' are a study in opposites, with the first opening on menacing synths before leading into rousing vocals from the McCrary Sisters, then packing in a guitar solo and some howling vocals before the climactic finish. The latter, however, is full of blasting beats and sick guitar slashes smashed together with heavy drums and plenty of bite. It is a timely reminder that no matter how weird or wild things get on this sprawling record, White is still a rock and roll master.
